Abstract

Figure 1 consists of two bar charts. The left chart is titled 'General population' and the right chart is titled 'Respondents who have experienced financial difficulty in the past 12 months'. Both charts show the percentage of respondents for different levels of agreement with the statement 'The government should do more to help people who are struggling financially'. The x-axis for both charts lists the levels of agreement: 'Strongly agree', 'Agree', 'Disagree', and 'Strongly disagree'. The y-axis represents the percentage of respondents, ranging from 0 to 100. In the 'General population' chart, 'Strongly agree' is approximately 65%, 'Agree' is approximately 30%, 'Disagree' is approximately 3%, and 'Strongly disagree' is approximately 2%. In the 'Respondents who have experienced financial difficulty in the past 12 months' chart, 'Strongly agree' is approximately 75%, 'Agree' is approximately 20%, 'Disagree' is approximately 3%, and 'Strongly disagree' is approximately 2%.
